The Northern papers contain "a telegraphic despatch from Washington, purporting to be a statement of L. C. Baker, wherein it is stated that Mrs. Wirz tried, on the 29th of October, to poison her husband by kissing him and introducing strychnine into his mouth. Baker choked him, and forced him to disgorge it, thus saving his life. It is also alleged that the poisonous pill of strychnine is now in possession of Baker. Further, it is stated that the friends of Davis, Lee, and Winder have had something to do with this matter; also, that Mrs. Wirz was very cold and devoid of affection or emotion during their intercourse." Mr. Schade, the counsel for Wirz pronounces this statement, "whether coming from Baker or any body else, an infamous lie from beginning to end."

It is known to be public that Ex-President Buchanan, has prepared a defence of his Administration against the charges alleged against it, especially in regard to the measures immediately preceding the late war. The work will shortly be published, and in the mean time, the preface to it is copied in the newspapers. In this preface it is said:—"The narrative will prove that the original and conspiring causes of all our future troubles are to be found in the long, active, and persistent hostility of the Northern Abolitionists, both in and out of Congress, against Southern slavery, until the final triumph of their cause in the election of President Lincoln; and, on the other hand, the corresponding antagonism and violence with which the advocates of slavery resisted these efforts, and vindicated its preservation and extension up to the period of secession."

THE CHOLERA.—The Russian papers announce that the cholera which made its appearance in Southern Russia, about two months since, is advancing north wards notwithstanding the cold weather. In its northern progress it has reached Berdytchen, in Russian Poland, a town of forty thousand inhabitants. In Paris the principal sufferers from the cholera were the rag-pickers and the street-sweepers. On the former class it had fallen very heavily. One hundred and fifteen thousand persons left Paris within ten days to avoid the epidemic.

The National Intelligencer advises the members elect to Congress from the South, and especially such members as may not feel able to take the oath prescribed by the test-oath enactment not to press for their seats, under any circumstances, until after the organization of the House.

Governor Holden of N. C., has received a telegram from Secretary Seward requesting him, in the name of the President, to continue to exercise the functions of Provisional Gov. until otherwise ordered. This is a similar action to that adopted in the case of South Carolina where a Governor has been recently elected. The provisional governors hold on.

Advices received at the State Department show that the cholera is rapidly abating in Europe and Asia.

The 6th regiment of Hancock's corps has been ordered to Washington to supply the places of the departing Veteran Reserves.

The amount of national currency in circulation at the present time is \$210,276,040.

Blondin fell from his rope recently in Berlin, Prussia, and came near breaking his neck.

Fears are expressed by our Consul at Manchester that the cattle plague, now raging in England, will be brought to this country, and he advises a quarantine.

Jacob Thompson, Secretary of the Interior under President Buchanan, has (October 19th) left Paris with his wife for a pilgrimage to the Holy Land.

The negroes of Alabama are going to form a State convention, to meet at Mobile on the third Monday of November.

Gen. Kilpatrick has been appointed U. S. Minister to Chili.

Capt. Semmes, formerly in command of the late Confederate steamer Alabama, is now quietly engaged in business in Natchez, Miss.

A case of cholera is reported in St. Louis, but it is doubtful.
